Important Messages

Paying Interest: You have a 24 to 30 day interest-free period for Purchases provided you have paid your previous balance in full by the Payment Due Date shown on your monthly Account statement. In order to avoid additional INTEREST CHARGES on Purchases, you must pay your new balance in full by the Payment Due Date shown on the front of your monthly Account statement.

There is no interest-free period for transactions that post to the Account as Advances or Balance Transfers except as provided in any Offer Materials. Those transactions are subject to interest from the date they post to the Account until the date they are paid in full.

Your payment of \$7254.07 will be automatically deducted from your bank account on 12/14/2015. Please refer to your AutoPay Terms and Conditions for further information regarding this account feature.

Budget Variance Analysis - Sunline Transit

Passenger Revenue - Unfavorable

- Passenger revenue affected by seasonal low during the summer months but has shown an improvement beginning in September due to children returning to school.
- The budget accounts for an increase in passenger revenue due to the new service improvements which will be primarily implemented in January. The revenue in the second half of the fiscal year should help reduce the unfavorable balance.

Other Revenue - Favorable

· Outside fuel sales and advertising revenue above the budgeted amount due to the emphasis on generating advertising revenue and an increase in the quantity of publicly consumed CNG and an increase price at the fuel island for the public over the same period in 2014.

Operator & Mechanic Salaries & Wages - Favorable

- Operators on extended leave for long term disability or workers compensation.
- The majority of the new service improvements will begin in January. A majority of the expenses associated with the service improvements would be coming from wages. Accordingly, there will be some wage savings in operations until the new services are implemented.

Operator & Mechanic Overtime - Unfavorable

· Operators on extended leave for long term disability or workers compensation.

Administration Salaries & Wages - Favorable

· Multiple positions were posted after the budget was approved by the Board of Directors in June but were not filled as of November.

Administration Overtime - Unfavorable

· Administration overtime expenses are within an acceptable range of the budgeted amount.

Fringe Benefits - Favorable

- Open positions help contribute to the favorable balance for fringe benefits.
- The vast majority of unemployment taxes are paid in the first quarter of the calendar year. Accordingly, January & February will reduce the favorable YTD balance within better range of budget. Communications - Favorable
 - · Planned increases in communication expenses are planned throughout the rest of the fiscal year.

Legal Services - General - Favorable

· Savings due to a decreased use in legal consulting during the change in legal firms and overall lower monthly expenses YTD.

Computer/Network Software Agreement - Favorable

Software agreements are re-newed at different points throughout the year and the account will experience highs and lows accordingly.

Uniforms - Unfavorable

Uniform expenditures are slightly over budget in the operations department due to the new classes of operators.

Contracted Services - Favorable

· Savings primarily attributed to not implementing the website hosting improvements or publishing the annual report to date.

Equipment Repairs - Favorable

Equipment repair expenses are within an acceptable range of the budgeted amount.

Security Services - Favorable

· Security service expenses are within an acceptable range of the budgeted amount.

Fuel - CNG - Favorable

• Natural gas prices were averaging 13% higher per MMBTU (1 million British Thermal Units) than previously forecasted by the US Energy Information Administration (EIA) used in the budgeting proce The natural gas prices have fallen since the beginning of the FY and has eliminated the unfavorable YTD variance.

Fuel - Hydrogen - Unfavorable

Technical difficulties with the hydrogen station has increased the unfavorable balance.

Tires - Favorable

 Tire expenses budgeted in accordance with the service improvements planned for January 2016 & should carry a favorable balance until the services are implemented. Office Supplies - Unfavorable

· Office supply expenses are within an acceptable range of the budgeted amount.

Travel/Training - Favorable

Travel & training savings can be attributed to varying times at which training sessions are attended.

Repair Parts -Unfavorable

· Heat related repairs such as AC units increase during the summer time.

· Engine rebuilds also contributed to the unfavorable balance.

The engine rebuilds will be capitalized and reduce the unfavorable balance in December.

Facility Maintenance - Linfavorable

· Facility maintenance expenses over budget due to unexpected repair costs for a hydraulic lift in the shops at Indio and Thousand Palms.

Electricity - CNG & Hydrogen - Unfavorable

· Electricity expenses are within an acceptable range of the budgeted amount.

Natural Gas - Favorable

 Natural gas prices averaging 13% higher per MMBTU (1 million British Thermal Units) than previously forecasted by the US Energy Information Administration (EIA) used in the budgeting process. The natural gas prices have fallen since the beginning of the FY and has eliminated the unfavorable YTD variance.

Water - Favorable

· Water expenses are within an acceptable range of the budgeted amount.

Insurance Losses - Favorable

· Insurance losses can vary greatly from month to month and there was not been much activity year to date.

Insurance Premium - Property - Favorable

• Insurance coverage is currently being re-evaluated and was therefore budgeted with a possible increase in expenses after expanding coverage. No changes to coverage have been made as of yet. Repair Claims - Unfavorable

• Completion of repairs for bus #570 in October has attributed to the unfavorable balance.

Fuel Taxes - Unfavorable

· An increase in outside fuel sales over the budgeted amount has lead to an unfavorable variance in fuel taxes.

Other Expenses - Favorable

• Insurance coverage is currently being re-evaluated and was therefore budgeted with a possible increase in expenses after expanding coverage. A change for Auto Physical Damage was brought bef the board in December and will go into affect in January 2016.

Self Consumed Fuel - Favorable

• Natural gas prices averaging 13% higher per MMBTU (1 million British Thermal Units) than previously forecasted by the US Energy Information Administration (EIA) used in the budgeting process. The natural gas prices have fallen since the beginning of the FY and has eliminated the unfavorable YTD variance.

Public Feedback

Information

At the request of Board of Directors, the Marketing team is bringing forward the various methods used to receive comments and feedback from the public.

<u>Customer Service Calls</u>

Concerns, compliments and suggestions may be received by phone, email, fax, in person, or social media. The information is documented by Customer Service Representatives using the Fleetnet software technology and forwarded to the appropriate department supervisor for follow-up. In general, the Customer Service Manager responds to customer concerns within 10 days. The Customer Service Manager submits monthly reporting highlighting the types of reports made, timeframe to close concerns and call volumes.

Social Media

When customers provide comments using social media, the Outreach Specialist will respond immediately noting the comment has been received and forwarded to Customer Service for documentation and response. The comment is then forwarded to the Customer Service team to ensure adequate tracking and follow-up is completed. As a note, SunLine social media accounts are set-up to receive suggestions, concerns and complaints as private messages.

Outreach Events

SunLine staff schedule and attend a wide variety of events and venues to increase availability to the public. During these events, concerns are documented and forwarded to the Customer Service team to ensure adequate tracking and follow-up is completed.

Surveys

Surveys are utilized to obtain demographic information, transit needs and customer satisfaction. SunLine conducted a survey of its passengers in November 2014 to update information about its riders and understand travel patterns and usage. A total of 4,202 surveys were collected November 5—21, 2014; the participation rate

was 55%. The findings are summarized in the February 2015 Bus Rider Survey Study Report.

SunLine also receives survey information from memberships and collaboration with advocacy groups such as Leadership Counsel for Justice and Accountability, Inland Congregation for Change, Knonkuey Design Initiative and Lideres Campesinas.

Collaborative Efforts

SunLine is committed to providing safe, efficient and reliable service to residents throughout the Coachella Valley. Team members regularly meet with community leaders, advocacy groups and grassroots representatives who relay the transit needs of citizens who are not able to provide direct contact with SunLine staff.

These groups include Coachella Valley Association of Governments, Coachella Valley Economic Partnership, Chambers Of Commerce, Riverside County Transportation Commission, Leadership Counsel for Justice and Accountability, Inland Congregation for Change, Knonkuey Design Initiative and Lideres Campesinas.

Public Comment Process

SunLine informs the public of service changes and other important activities relating to service delivery through a specific public comment process that includes public notification, public meetings and sometimes public hearings. Public meetings serve as an opportunity for individuals to provide comment on proposed services and also provide suggestions for new or existing services. The results of public meetings are compiled and reported to the Board of Directors as outlined in the SunLine Public Participation Plan.

Financial Impact

The events highlighted above reflect existing programs provided by SunLine; therefore, there are no financial impacts.

Modification of Pension Investment Manager

Information

Keeping with the overall evaluation of the Agency's finances, management has identified the pension plans as an area for review. Staff believes it would be in the Agency's best interest to change the current investment manager in an effort to increase returns on its pension investments. The Agency has separate plans and trust agreements for the Bargaining and Non-Bargaining pension plans which are both currently held with Union Bank. The trust agreements allow flexibility for the choice of independent investment managers. SunLine's investment manager, High Mark Capital Management, has been managing investments for both plans since the inception of the trust agreements in 2009. The Pension Committee will work with the Trustee in order to select an investment manager with the qualifications necessary to provide the highest return on investments in accordance with the Investment Policy.

Members Absent

John J. Benoit, Supervisor, County of Riverside Rick Hutcheson, Councilmember, City of Palm Springs Russell Betts, Mayor Pro Tem, City of Desert Hot Springs

4. Presentations

Manny Garcia, Superintendent of Transportation, presented a State of the Mode for Operations. Manny presented areas in which Operations has been successful in improving performance this calendar year. He gave breakdown of the department and stated that the department strength was the dedication of the personnel and their desire to offer the best transit for the Coachella Valley. Manny went over various ways the department is focused on improvement through increasing ridership, customer service, on-time performance and reducing overtime.

Mayor Steven Hernandez said overall good job and implementing performance management is what we intended and the goal is to continue learning and be a learning organization. The area he thought was important for the performance management is the customer service side and how we need input from our constituencies and how have we started to get that input in terms of our ridership and in terms of what they want as that's part of the for base of performance management

Page 2

is really understanding how the community has an opportunity to talk about and see what they want. He stated that ultimately what we are doing is to create public value. He stated he is curious as to how we are getting the opinions of the community.

CEO/General Manager Lauren Skiver, stated that we gather customer comments which consist of commendations, complaints and suggestions. We do know that being out in the community is the best way. Forcing people to call us or email us is very one dimensional so staff is working on being out. If we make a service change we are out there at the bus stop to tell people that there's a service change. Recently when we had the Town Center Way closed and it affected a major stop we had staff there so people weren't having to find their way. We do want to create more effort in gaining what our customers are looking for but what she is most proud about with Manny and the Operations team is on-time is our product. We really had to attack this and early departures are something you don't do in transit. She is really proud of what they have done to start to look at the element that we actually provide which is customer service and service. She does think we can come to the Board with some stronger ways to gain public input and public opinion on both the service we are providing and the service we need to be providing to meet their needs.

Mayor Steven Hernandez stated that at the same time we need to think about what other bench marks do we want to pursue. On-time is one and fuel is another and let's keep refining ourselves to be better operations.

Manny Garcia, Superintendent of Transpiration further stated that September overall performance was 92% which is an increase. He gave kudos to the CEO as this was a process that was new to all at the beginning of the year and the whole agency has absorbed all of this. It took a while to realize how valuable it was but we find we are using it daily.

Councilman Troy Strange said great job at looking at ways to improve and the biggest thing is the communication and getting the community involved because he sees to often where we miss the mark. Typically government or different agencies in trying to reach the public is like hit and miss wondering what's going on. He wanted to say he appreciates the hard work and beginning to figure it out and being an example.

Norma Stevens, Public Outreach Specialist presented on our Ninth Annual Fill the Bus food drive that SunLine participates in every year. Norma wanted to acknowledge two partners that she believes the success of the food drive would not have been as great without them. She stated that goals were exceeded in collecting sixteen tons of food. The two recipients were Martha's Village and Kitchen in Indio and Well of the Desert in Palm Springs. Norma wanted to acknowledge the partners KESQ Ken Kay the Marketing Director had a last minute emergency and is unable to be here but she did want to acknowledge the partnership. KESQ provided and produced a PSA on their news station and they aired it 945 times and that is a value of over \$70,000. They also offered back-to-back coverage the morning of the event. Ken Kay wanted everyone to know that they are proud to be partners with SunLine and proud to be part of the Fill the Bus food drive and they want to continue supporting it every year. She also wanted to acknowledge our other partner Alpha Media who also produced radio PSA's

Page 3

and they aired them on three of their most popular stations. On the day of the event they provided live radio broadcasts at the three locations. Norma introduced Scott Dwight with Alpha Media and presented him with a token of our appreciation. Scott thanked SunLine for letting them be involved with such a wonderful project and they look forward to it every year.

Mayor Pro Tem Kristy Franklin asked how the food was distributed after collection and Norma explained the process of distribution to the agencies.

5. Finalization of Agenda

No changes to the agenda.

6. Public Comments

No request for comments for agenda items or non-agenda Items.

7. <u>Board Member Comments</u>

Mayor Pro Tem Kristy Franklin wanted to say how grateful she is that SunLine has done so much community outreach. She asked Lauren for a list that could be emailed to the Board of everything you have done in the past year. It's wonderful and it's what we should be doing its part of what we do.

CEO/General Manager Lauren Skiver stated she would get that to her and the Board.

Travel & Expense Reimbursement Policy #B-200197 Revision

Approval

Recommended Action

Recommend that the Board of Directors approve the attached revised Travel & Expense Reimbursement Policy #B-200197.

Background

This item is brought before the Board as a result of Staff's continual effort to improve and update the Agency's policies. The Travel & Expense Reimbursement Policy was originally adopted in January 2004 and most recently revised in February 2007. In this proposed revision, Staff is recommending that the Board approve the attached revision which primarily updates the meal reimbursement process and employee titles where appropriate. This revision improves on the previous version by adding clarity and streamlining the expense reimbursement process.

Financial Impact

The increase in expenses are projected to be minimal and will not cause a budgetary burden.

Resolutions to Obtain Grant Funding

Recommendation

Recommend that the Board of Directors approve:

- The attached resolution authorizing the execution of the Low Carbon Transit Operations Program (LCTOP) for line 80, 81 and 95 service frequency improvements.
- 2. The attached resolution for Certifications and Assurances which delegates authority to the CEO/General Manager to execute required documents for grants and obtain funding through the LCTOP.

Background

The State Legislature approved SB 862, the Cap and Trade trailer bill which establishes long-term funding programs from the Cap and Trade program for transit, sustainable communities & affordable housing and high speed rail. Five percent of these funds are appropriated by the State Controller and administered by Caltrans, to the Low Carbon Transit Operations Program.

The Low Carbon Transit Operations Program provides funding allocations based on criteria included in the Public Utilities Code which are based on population and farebox revenue. SunLine will be applying for an appropriated funding award of \$539,373 which can be utilized to reduce greenhouse gas emissions and improve mobility with a priority on serving disadvantaged communities.

Financial Impact

If awarded the requested amount, this grant will provide state funding revenue of \$539,373 for the Agency.

RE:

Resolution Authorizing the Opening of Account

Recommendation

Recommend that the Board of Directors approve the attached resolution authorizing the opening of one savings account.

Background

At the June 2015 Board Meeting, the Board of Directors approved the CEO/General Manager to execute a contract with Wells Fargo as the new bank institution for SunLine Transit Agency. All the new accounts were subsequently opened as checking accounts generating an earnings credit to offset monthly bank charges. In accordance with regulations, Prop 1B cash must be held in an interest bearing account. Wells Fargo only allows an account to generate either an earnings credit or interest. Accordingly, we must open a savings account and transfer the Prop 1B cash to generate interest.

Financial Impact

The increase in expenses are projected to be minimal and will not cause a budgetary burden.

TAXI AND TECHNOLOGY FOR TOMORROWS ON-DEMAND TRANSPORTATION NEEDS

Taxi GPS Meter

What is the difference between the traditional Taxi Meter and GPS based Taxi Meter

- ► Traditional Taxi Meters: count wheel rotations to calculate distance travels and algorithms for time when a taxi is traveling at a speed less than 12 MPH or stopped
- ► GPS Based: cloud based systems use Global Positioning (GPS) for calculating fares by time and distance

GPS TECHNOLOGY

In addition to fare calculation this new technology can provide

Ride Splitting: Allows unrelated passengers picked up at different time to split fares

Dynamic Pricing: Coachella Valley taxi rates are regulated and cannot rise above the set rates or surge price, however taxis are free to reduce prices to lure passengers

Seamless Payments: Rider can pay with cash, credit cards of credit cards of credit

What about Regulation?

December 22, 2015 California's Division of Measurement Standards, which regulates commercial measuring devices like taxi meters, approved Flywheel's TaxiOS technology for cabs

Essentially, this means traditional taxis can replace their antiquated metering, dispatch, navigation, and payment systems with a "smart," cloud-enabled smartphone meter resembling what you see in TNC Vehicles

Sunline Regulatory Administration Checks \$1,000 and Over For the month of November 2015

NOTE: 1). Boid check payments represent "pass through" payments that were, or will be reimbursed to SunLine under the provisions of specific grants or contracts. 2). Underlined check payments represent "shared" payments with SunLine and specific vendors/employees.

Budget Variance Analysis - SunLine Regulatory

Revenue - Unfavorable

- Taxi revenues heavily influenced by seasonal decline during summer months. The surplus in the peak months will decrease the unfavorable balance.
- Taxi companies were given the opportunity to pay the full year's vehicle permits during the peak months of October through April.
- \$540 was received as compensation for documents provided by order of subpoena.

Salaries and Wages - Unfavorable

• One employee has been temporarily re-assigned to assist SunLine Transit Agency (STA). The labor will be charged to STA's accounts and will represe a savings for SunLine Regulatory Agency.

Fringe Benefits - Favorable

• One employee has been temporarily re-assigned to assist SunLine Transit Agency (STA). The fringe will be charged to STA's accounts and will repres a savings for SunLine Regulatory Agency.

Services - Favorable

· Currently, there are no audit expenses charged under services.

Supplies and Materials - Favorable

 Allocated overhead paid to SunLine is lower than expected due to SRA needing to conduct taxi inspections with a third party for a short period instead the inspections being conducted by SunLine mechanics.

Miscellaneous - Unfavorable

• Planned training expenses were paid in full for the Transit-Paratransit Management program in July 2015.

RE:

Amendments to SSG Ordinance

Recommended Action

Recommend that the Board of Directors approve the first reading of the proposed amendments to SSG ordinance #2015-01.

Background

Staff met with Coachella Valley Taxicab Franchises. The goal: to better understand some of the current regulations that impede the franchises ability to save money, deploy technology, streamline and strategize to compete in today's transportation environment.

Amendments to sections:

1.010 Definitions

1.140 Use of Top Light

1.200 C. Taxi Meter Misuse

1.225 Exclusive Arrangements

A draft of the proposed amendments to SSG Ordinance attachment have been provided with the recommended changes.

ORDINANCE NO. 2016-01 AN ORDINANCE OF SUNLINE SERVICES GROUP A M E N D I N G ORDINANCE NO. 2015-01

WHEREAS, Government Code section 53075.5 requires every city and county to protect the public health, safety and welfare by adopting an ordinance concerning the provision of taxicab services, to provide a policy for entry into the business of providing taxicab services, to establish or require registration of rates for the provision of such services and for such other matters as determined by the legislative body; and,

WHEREAS, the County of Riverside and the Coachella Valley cities comprising the joint powers agency known as SunLine Service Group ("SSG") desire to provide for the orderly, efficient, and safe operation of taxicab services within the Coachella Valley; and,

WHEREAS, an implementation agreement has been entered into by the County of Riverside and those Coachella Valley cities whose signatures appear on that agreement, authorizing SSG to regulate taxicab transportation services within the jurisdictional boundaries of SSG, and

WHEREAS, Government Code section 53069.4(a)(I) permits the legislative body of a local agency to make any violation of any ordinance enacted by the local agency subject to administrative fine or penalty; and,

WHEREAS, the powers provided under Government Code section 36091 which permit a city legislative body to impose fines, penalties and forfeitures for violations of its ordinances have, by joint powers agreement, been assigned to SSG as provided under Government Code section 6500, et seq.; and,

WHEREAS, the Board of Directors of SSG has adopted Ordinance No. 2015-01 regulating taxicabs; and,

WHEREAS, the Board of Directors of SSG desires to amend Ordinance No. 2015-01 to allow taxicabs to use GPS-based taximeters, to reduce the frequency of taxicab inspection to one per year, and to delete the prohibition on exclusive arrangements between venues and taxicab services.

NOW, THEREFORE, the Board of Directors of SSG does ordain as follows:

<u>PART 1</u>: That the Board of Directors of SSG hereby amends Ordinance 2015-01 as follows:

A. Section 1.010 (Definitions), Paragraph V is amended to read as follows:

"Taximeter' means a device or technology, including but not limited to a Global Positioning System (GPS) based smartphone application, that automatically calculates, at a predetermined rate or rates, and indicates the charge for hire of a vehicle, for distance traveled and waiting time."

B. Section 1.140 (Use of Top Light) is amended to read as follows:

"Each Taxicab shall have permanently affixed to the top of the Taxicab an operable Top light. The lights of the Top light shall be turned on whenever the Taximeter is in operation."

C. Section 1.200 (Taximeter Misuse) is amended to add a new Paragraph C, which shall read as follows:

"C. All Taximeters must be submitted with appropriate documentation and preapproved by SunLine Regulatory Administration prior to implementation."

D. Section 1.225 (Exclusive Arrangements between Franchises and Venues Concerning Taxicab Trips Prohibited) is hereby deleted in its entirety.

PART 2: This Ordinance shall take effect 30 days from the date of its adoption.

PART 3: SunLine Service Group shall certify the passage and adoption of this Ordinance 2016-01 and shall cause the same to be posted and published in the manner required by law.
